they were awaiting the arrival from Ghat of the Tuarick escort, headed by Hattia, who calls him-self "the friend of the Eaglish," from having es-

corted Oudney and Clapperton to Ghat. The party were all well, and in high spirits.

Of the varied oral information collected by the

Of the varied oral information collected by the travelers respecting the interior of Africs, the most interesting, probably, is the statement made to Dr. Overweg, by a Baghirmi negro, that south of the latter's country, is a nation of Kafirs (which means that they do not profess the Mohammedan religior), who are clothed, possess large herds of cattle, and have iron weapons (war axes) of their own manufacture. Their country is mountainous, and is covered with snow every Winter.

With regard to the latter part of this information,

and is covered with snow every Winter.

With regard to the latter part of this information, it may be remarked, that it seems to connect itself with the results recently arrived at by other travelers, and to afford reasonable grounds for the opinion that the interior of Africa consists of an immense table-land, extending without any material interruption from the Mountains of Mendeli, south of Later Theorem 1997.

of Lake Tchad, as far as the Cape of Good Hope— and which is inhabited by nations of civilization superior to that of other Africans, and that, in fact, this great plateau, from its elevation, resembles in

this great plateau, from its elevation, resembles in its climate and physical characters much more an European than a tropical country, and offers an example analogous to that of the great Andean tablelands of South America. Mr. Rebmann, in speaking of the natives in the interior west of Mombus, from whom he received a very friendly reception, states that the character of the people is free from that savageness which would render it unadvisable for one or two individuals to reside in their country: and that it rather displays composure, gravity

for one or two individuals to reside in their country; and that it rather displays composure, gravity and quietness—as is generally the case with people living in mountainous countries. Again, Mr. Cooley, in alluding to the Mucaranga, or people of

Cooley, in alluding to the Mucarangs, or people of Monomoezi, who annually descend in large numbers to Zanzibar to trade—says that they are decently clothed in cotton of their own manufacture, and bring down their merchandise to the coast laden on asses of a fine breed. Of the natives met with by Mr. Livingston near Lake Ngami, we have likewise favorable accounts, so that we may induge the bope that as soon as Dr. Overweg and Dr. Barth shall reach the Mandara monotains, they

Dr. Barth shall reach the Mandara mountains, they will be beyond the reach of the deadly climate and of the savage inhabitants of the African lowlands—

and that they will afterward have fewer obstacles in pursuing their way S. E. in the direction of Mombas, their desired goal. It is in fact, not until they shall have arrived beyond Lake Tchad that these zealous and energetic travelers consider that their real field of exploration will begin. The only fear is that their recently we may not be sufficient.

is, that their pecuniary means may not be sufficient to enable them to cary out their gigantic under

Post-Office-Mails Close.

Summer Arrangement.

THE GREAT NORTHERN MAIL, via Albany and Buffalo, to Detroit, Chicago, lows and Munsearta Territories, is closed at 4 P.M. duly (except Sunday, on which day it will close at 1g. P.M.). By this mail is forwarded all matter for Albany and the West all the offices on the Candi and on the Railroad and their depositionies, between Albany and Buffalo; the Counties of Crawford and Ers., in Pennsylvana, the Counties in Onlo hordering on and squared to Lake Ers., the northern Counties in Indiana and Illinois; and for both the Candidas.

both the Canadas.

Also, mails for offices in the Counties of Clinton, Easer, Franklin,

We had yesterday the pleasure of a visit from five of the remaining members of the famous Vienna Legion, whose bravery in the Hangarian War of Independence was so reliable that Bem, whose favorite they were, was wont to say of them that one man was worth a whole batallion of other soldiers. They were drawn mainly, if not altogether, from the students of the Vienna University, and when, after the downfall of that city in 1848, they left for Hungary, hey numbered 150; only 17 now remain alive, the Legion having been foremost in every battle in which it took part-The gentlemen who visited us yesterday were Capt. Ernst, Capt. Loo, Licut. Fekete, Lieut. Eichle, and Lieut Lang. Three of them have received severe wounds, and one has lost his hearing from that cause. They were accompanied by Dr. Radolph Hoas, who occupied an important position in the Hungarian medical staff. Dr. Hoan was previously a lecturer on epidemic diseases at the University of Vienna. He intents to establish himself in the practice of his profession in this country, while his companions will seek to gain a livelihood by means of labor. Success to

MILITARY VOYAGEURS .-- Our citizens were agreeably surprised yesterday by a brief visit from the celebrated Albany Burgess Corps, Capt. Spel. man, who arrived in the Rip Van Winkle in the morning. On landing the A. B. C. was received by our Light Guard, Capt Vincent, and excerted to the Astor House, where, it is needless to say, their call was refreshing and agreeable. During the day they looked in at the Light Guard's Armory, and visited such places of interest as were near at hand, and at 4 o'clock they formed and were reviewed by the Mayor and the Common Council at the City Hall. Soon afterward they proceeded, under the Light Guard's escort to pier No. 2 North Biver, and went on board the C. Vanderbilt bound for Stonington; thence they go by railroad to Providence, whence they will be met this morning by the Providence Light Infantry, and become the guests of that corps at the City Hotel. After dianer they will start for Boston, where they will arrive at 6 o'clock this evening. At the depot they will be met and received by the Boston City Guards, Capt. Thompson. After a welcoming col lation, the guests will be escorted to the quarters prepared for them at the Pavilion Hotel, in Treint st. On Thursday the A. B. C.s will parade at 9 A. M. and be escorted by the B. C. G.s to the City Hall, where they will be introduced by Capt. Thompson to the Mayor and Aldermen. Leaving by a special train, at 11 o'clock for Lowell, both corps will pass the day in that city. The Lowell Mechanic Phalanx will receive and escor: them, showing up the wonders of the 'City of Spindles,' and entertain them to a collation at the American House. On Friday, the B. C. G s will accompany their guests to the Navy Yard, Bunker Hill, and other places of interest. Returning, the C. G's give a 'farewell' dinner at the Pavilion, and escort them to the cars in the afternoon, or Saturday morning, (as yet undecided.) The A. B. C.'s will visit Springfield on their return, and probably arrive home on Saturday afternoon, via Western Railroad.

The Albany Burgess Corps, or, as they are more familiarly known, the A. B. C. are one of the oldest independent companies in the State, and long bore the palm as the best drilled, best uniformed company in the country. Their present appearance ndicates that it would require the greatest exertions of our New-York Companies to put them second best. The A. B. C. wear blue pants, laced red coats, handsomely trimmed; bear skin caps,

The investigation relative to the falling of the wall in Spruce-at on Monday afternoon, and also that relating to the cause of the falling of the wall in Mercer st. on the same afternoon, will take place before the Coroner this morning at 9 o'clock.

The examination of the 32 ri ters arrested in the Sixteenth Ward on Wednesday afternoon, will take place at Jefferson Market Police Court before Justice McGrath, this morning at 10 o'clock Two pistols, 6 slung shot and 5 case knives were found on the persons arrested.

CITY GUARD OFFICERS .- We understand that Capt. McArdle and other officers of the New York City Guard will go to Boston for the purpose of taking command of the Boston City Guard at the funeral parade on the 15th inst.

THE ARRESTS AT FIRE ISLAND .- One of the perties arrested in relation to the bark Elizabeth has given bail in the sum of \$5,000. An examina tion, as to the others, will be held probably in a few days.

NEW YORK AND SAVANNAH STEAMERS -- CODerning the line of steam communication about to be established between this city and Savannah, the Republican of the latter city says:

Republican of the latter city says:

We are pleased to learn that the new and splendid ships of this line, the Florida and Alabams, are both nearly completed, and that they will be in place very soon, with a determination on the part of the owners, both here and in New York, to keep up the line permanently. The Florida will leave New York for Savannah at the end of this month or

New York for Savannan at the end of this month or the first of September, and the Alabama will follow in about a month.

As it has been generally supposed heretofore, by ourselves as well as others, that the ships would be sold for the Chagres and California route, we take occasion to say that we are now entirely satisfied that there never was any interprine to sail the field that there never was any intention to sell the Alabama, even at a very high figure. The stock-holders North and South unite in the opinion that no circumstance or temptation should induce a sale of this vessel. The improvements made in the boilers of the Alabama will save so much in fuel as to render it certain that she will prove an exceedingly preferable vessel. She will beyond all doubt. The stock of the vessel of the provention of the stock of th profitable vessel, She will, beyond all doubt, re-main permanently on the line. Although there has been offered for the Fiorida a sum exceeding her cost by \$50,000, the offer has not been entertained. If hereafter it should be determined to sell her, with the view to build a new ship in her place—having all the improvements introduced into the Alabama the sale will not be made without a distinct under

the sale will not be made without a distinct under-standing and pledge that the substituted ship shall, with the Alabama, be kept permanently on—so matter what tempting offers may be made. We feel, then, every condidence, that our steam communication with New York will be resumed in the course of thirty days, and that it will continue without interruption. Friends who have recently left Savannah for the North have visited the Florida and Alabams, and they agree that two better or more magnificent and well-adapted ships do not loat on the ocean. They are represented to be models of beauty and similar in construction throughout, save that the improved boilers are

throughout, save that the improved boilers are placed in the Alabama. The speed of these noble vessels will be superior to the Tennessee and Cherokee. They will doubtless reflect great credit the builders. We shall keep "a bright look-out" for our worthy friend and favorite, Captain Lyons, who will command the Fiorids, and most heartily will we rejoice to see him again in place, "ready for all weathers."

We understand, also, that our enterprising friends, Brooks & Harden, who have established so great reputation by the management of the line between this city and Charleston, have made arrangements to build two elegant sea going steamers, to be

this city and Charleston, have made arrangements to build two elegant aca going steamers, to be placed, next Spring, on an outside fast line. These steamers will perform the trip from the wharf in Savannah to the wharf in Charleston in eight hours or less time. Capt Brooks is now at the North contracting for the vessels, and he will spare no pakes nor expense in securing all the recent improvements in hulls and machinery. Our friends of the interior and far West will doubtless be induced to pay our city many visits of business and pleasure by the improvements made and progressing in our railroad and steam ship lines.

To the Editors of The Tribune

To the Editors of The Tribune:

The Permit me, through the columns of your journal, to call public attention to the continued and increasingly indecorous conduct of a gang of "row-dies" who congregate every Sabbath on the borner of Walker and Mott sta, ene of the most frequent-ed thoroughfares in that section of the City, (Four-teenth Ward) I would not trouble you, but the Police are not disposed to interfer, and in some instances they do well to keep away from the vicinity. Something, however, should be done to prevent others from being it salted on their passage to and from church by those misguided young men, who love to patronize filthy "rum-shops" on the Sabbath day, polluting the air with their obscene and abominable jests, to the disgrace of themselves and their much to be-pitied relatives and friends. and their much to be pitied relatives and friends.

The examination of Geo. W. Niles, charged with conspiring to defraud Mr. Henry Havens, was resumed yesterday before Justice Mountfort. Two Commissioners of Deeds were examined, and the testimony adduced went far to show that the paper given by Niles to Mr. Havens releasing him from all obligation to his (Niles's) clients. John and Elien Sullivan, was a fraudulent affair. In consequence of the continued ill health of Mr. Graham, one of the counsel for the accused, the further examination of the case was postponed to the 16th mination of the case was postponed to the 16th

SHAMEFUL ARANDONMENT.—Coroner Geer held an inquest yesterday at the Seventh Ward Station House, upon the body of a male infant, about two months old, found lying under a wagon in Henry, near Scammel ate. on Monday night. Dr. Holmes made a post mortem examination of the body, and found all the organs in a healthful state. The Jury rendered a verdict that its death was caused by exposure and want of proper attendance. A more heartless shandonment could scarcely be conceived than this case presents.

Builde.—An inquest was held at No. 103 Goerck st. upon the body of Mary King, a native of this City, 19 years of age, who committed suicide on Monday night by swallowing two ounces of laudanum. The deceased was a girl of many personal attractions, and was much beloved for her virtues by a large circle of friends. Disappointment in an affair of the heart is supposed to have been the cause of the commission of the rash act.

DEATH CAUSED BY THE FALLING OF A WALL IN MERCER ST.—The Coroner held an inquest yeaterday at 117 Mottst. upon the body of James Casidy, a native of Ireland, 45 years of age, whose death was caused by injuries received by the falling of a wall in Mercer st. upon him on Monday afternoon. Variet accordingly. ternoon. Verdict accordingly.

CHARGE OF PASSING SPURIOUS MONEY .- Adolph CHARGE OF PASSING SPURIOUS MONEY.—Adoph Fasche and Julius Roll were yesterday arrested on a charge of passing a shop card, having the ap-pearance of being a \$50 bill, to Wm. Heldeberand of 114 Greenwich at. The complainant supposing it to be a genuine bank bill, changed it for the ac-cused, giving them \$50 in good money. The fellows were locked up to answer the charge.

GRAND LARCENT AND ARREST .- A man named charge of stealing, some months since, a quantity of jewelry and silver ware, valued at \$100, the property of Timothy O'Hara, residing at 53 Mulberry st. The jewelry was found on the person of the accused, who was locked up to answer the

BROOKLYN ITEMS.

ALL RIGHT .- At the meeting of the Board of Health yesterday, the Health Warden reported that he had examined the manufactory of H. Fryatt & Co. complained of on Monday, and went through the building from bottom to top. He found on the premises a large quantity of hides, but they were all in good order, and he found nothing which he should deem a nuisance in or about the buildings. The manufacture of ivory black had been suspended some time ago, but isingglass was still made. The different parts of the building were kept in order, and he failed to discover the offensive smell complained of.

Sudden Death — Miss Ellen Farrell a young lady, some 18 or 20 years of age, daughter of James Farrell, residing in Plymouth-st. near Hudson av. died very anddenly at her father's residence, about 10 o'clock Monday night. Miss F. had for the past week been laboring under a very severe attack of diarrhes, and, being desirous of a tending a party this evening, she purchased a quantity of laudanum, for the purpose of checking the complaint; it appears she took two doses of laudanum between 6 and 7 o'clock, about which time she was seen in the streets by her friends. About 10 o'clock she was attacked with severe pains, and it was she was attacked with severe pains, and it was then for the first time learned by her mother that she had been taking laudanum. Medical aid was immediately sent for, and obtained, but too late to

BURGLARY.—A desperate attempt was made to break into the heuse of Dr. Raiph Glover, on Mount Prospect, on Sunday night, while all the smily were absent at Church, except some small children and a servant girl, who fied to the nearest neighbors on the approach of the burglars. On his retarn, at about 10 o'clock, Dr. Glover heard the noise of the dogs and the sound of blows; whereupon, he gave pursuit, and the burglars fled.

WILLIAMSBURGH ITEMS.

SOUTH SEVENTH AND GRAND-ST. N. Y. FERRY. -His Honor, the Mayor of New-York, not having submitted any objections to the late resolutions granting to the Ferry Company the privilege of this route, it has become a law. The Company, by this resolution, will be required to run a regular ferry, under the same regulations as their other routes, and free to commuters on those routes .-The plan is, we believe, to devote the present bridge, foot of South Seventh-at. to this line, and a new ferry-way to be erected on the Company's land on the south side of South Seventh-st. for the Peckalip route. There will also be two ferry ways on the New York side, the new one on the north side of the pier forming the present location, toward Broome st. the Company having leased the bulkhead at that point of Mr. Kettletas, at \$3.500 at year. The Ferry being directly across, will be one of the shortest as, soon, one of the most frequent ed, probably, on the river.

SOUTH FOURTH-ST. OMSIBUSES .- The new line established a few months since, from the Ferryways through First, South Seventh, Fourth, South Fourth and Meserole ats. has been eminently successful, without, we understand, deteriorating from the value of the line previously established through Grand-at. The stages afford great accommedation to the inhabitants.

LONG ISLAND ITEMS.

NEWTOWN.-This town, like all others in the vicinity of New-York, is fast increasing in value, and many fine estates, and beautiful mansionhouses, are to be seen on every hand. Among them we notice of Messrs. Geo. B. Brinckerhoff. Lord, (Lord & Taylor, N. Y.) John J. Moore, Henry S. Leveridge, Chas. P. Leveridge (firm P. Remsen & Co. N. Y.) Goselin, and others. There are several elegant churches in the town, and almos any number of farm houses and market gardens in the vicinity. The importance of Newtown (which is several miles in extent) to New-York, may be known from the fact that there are some 500 or 600 farmers engaged in raising vegetables, fruits, &c. and carrying it daily to the New-York market, beside milkmen, &c. in abundance. The usual route is by the way of Williamsburgh, from which it is distant some three or four miles. -

By a recent vote, a fine building is soon to be put up for a Towr Hall, also (what has been found indispensable) a prison, in which to place persons who come over there on Sunday gunning, and intruding upon the grounds, shooting fowls, ducks, &c. when not successful in obtaining more legal

There is a good Hotel in the town, where per sons, traveling for recreation or business, may have a comfortable place of rest NEW-HAVEN ITEMS.

BREWSTER HALL, a superb new Lecture Room, erected by James Brewster, Esq. at the corner of Chapel and Union sts. is to be opened to the public this evening with a Lecture by PARK BENJAMIN and appropriate Music. We trust this Hall will be 'improved' by the good People of New-Haven, whose addiction to Popular Lectures has not hitherto been conspicuous, and we could wish some affluent citizen of many places beside New-Haven might be impelled to follow Mr. Brewster's example. A good Lecture Hall, well lighted and ventilated, might be rendered as useful as a College in

LABOR MOVEMENTS.

MEETINGS THIS EVENING .- Saddlers' Benevolent Society, Mifitary Hall, Bowery, opposite Spring-st.; Upholaterers, Tuomey's Democratic Head Quarters, corner of Grand and Elizabethats.; the Tailors, (who have been on a strike these three weeks) at their several resorts; Laborers of the Fourth District at Milleman's, Broadway, between Eighteenth and Nineteenth-sts; Coopers of Williamsburgh at the North American Hotel Quarrymen's Union Protective Society at Patrick Fagan's, Thirty-eighth st. between Second and Third avenues: Bricklayers and Plasterers, 90 Perry st.; Board of Trustees of the Protective Union Cooperative Society; and the Journeymen Window Shade Painters' Protective Union at their association shop, corner of Catherine and Henry-sts.

THE GERRIT SMITH BENEFICIARIES IN THIS CL. TI .- The New-Orleans Bulletin of the 25th ult. grossly misrepresents the Association of the do. nees of the Gerrit Smith lands in Franklin Co. in this State, residing in this City. These recipients are "white" persons, and not "fugitive slaves," "free negroes;" neither are they "vagabonds," as the Bulletin would have its readers believe. The report published that only two beneficiaries attended the last meeting of the Association is false, and, furthermore, the regular monthly meetings are only held for the formation of a better acquaintance among the recipients, who are all hardworking mechanics, with no desire " to remain vagabonds in the City." The speech of Morse of vagabonds in the City." The speech of Morse of Louisiana must be refreshing to the Editor of the Bulletin. There is a wonderful coincidence of sentiment existing between the two worthies. One (the M. C.) denounces the workingmen who demand their God-given right to land and a home as "ill-bred scoundrels," while the other condescends to apply the epithet of "vagabond." The opponents of Land Reform, Land Limitation, and the Secure Homestead, may denounce the friends of those measures by whatever vile epithets they may, but sooner or later these glorious principles must be established in America on a firm basis.—Like all true and real reforms, the Land Reform will bear discussion, and we are glad to see it breaking out so extensively at the South, although it is not sectional in its tendency.

it is not sectional in its tendency. ALBANY.-The Journeymen Bricklayers' and Mason's Union Benevolent Society have chosen

the following officers : President, Michael Conway; Vice President, Richard Burke; Secretary, Daniel Lary; Assistant Secretary, Win. Lynch; Tressurer, Martin Bray.

LAW COURTS.

U. S. DISTRICT COURT—Before Judge Betts.—
The August Term opened yesterday, and return of
process made, &c.
Ship Martha.—In the case of this vessel (sent

Ship Martha.—In the case of this vessel (sent in as being engaged in the slave trade, and now lying stranded at Staten Island,) motion was made on behalf of the United States that a decree be granted declaring her to be forfeited, together with her tackle, apparel, &c. No person being present to oppose, although something was said by Col. Haskett, the motion was granted, and the vessel, with her appurtenances, condemned.

with her appurtenances, condemned.

COURT OF GENERAL SESSIONS, Tuesday—Before the Recorder and Aldermen Barr and Bail.—Highway Robbery—Michael Glynn and Wm. Broderick were called to trial charged with robbery in the first degree in forcibly taking \$4 from the person of Claude H. Laurent, at 141 Washington at on the 29th of June last. Glynn was barkeeper at the bouse, and had solicited complainant to take lodgings there on the 27th of June. In two days afterward he was taken into a room where the two prisoners and another set upon him, assaulted his person and took \$4 from him, after drawing a knife upon him. The presecution failed to prove what, if any money, was taken from the complainant. The defense introduced several witnesses to prove that the affray took place, and that it arose from a dispute between the complainant and a cartman who was employed to take his luggage on board a ship. Broderick and Glynn went in to prevent the contest between the cartman and the complainant.—The jury acquitted the prisoners, and they were discharged.

Falling Walls and the Grand Inquest—

Walls and the Grand Inquest -Falling Walls and the Grand Inquest — The Grand Inquest were requested, by the Re-corder to come into Court this morning, when he called their attention to the accident caused by the Honor remarked that these accidents had occurred to frequently of late, that he felt called on to request them to investigate the matter and make a presentment, so that the public might know who to blame. of a wall in Spruce st. on Monday.

BROOKLYN LAW COURTS.

SUPREME COURT-Special Term-Before N. B. Morse, Justice.—In the matter of Stephen Van Brant, an habitual drunkard. Read petition, ordered reference to John Dikeman to examine the accounts of John Wycoff, committee of said habit-

accounts of John Wycoff, committee of said habitual drunkard.

Ben). W. Van Nort and Wife against Mahala
Van Nort.—Read affidavit and notice of motion
and admission. Ordered that John F. Vanborn,
administrator, &c. be joined as a party defendant.

William H. Briggs and Samuel A Berry, Assignees, against Mariam Greene and others.—Read
certified copy Sheriff's report of sale. Ordered,
that the Sheriff of Westchester County amend his
report of sale, by stating the amount of deficiency
of plaintiff's claim remaining unsatisfied. Papers
to be filed, and order entered with the Clerk of
Westchester County.

The Expedition to Central Africa.

The following information, derived from letters dressed to the Chevalier Bunsen and Prof. Karl Ritter, by Dr. Overweg, the geographer attached to the expedition now on its way to Lake Tchad, may prove not uninteresting to your readers— These letters, dated Muranh, 25th of May, and accomparied by an excellent map, describe the route from Tripoli to that place, through a tract of coun-try hitherto unexplored by any scientific traveler. try hitherto unexplored by any scientific traveler. The direction of this route is almost due south from Tripoli, turning south east on approaching Mursuk; and beyond the Garian Pass—which is about thirty-five miles from Tripoli, and near which is Mount Tekut, having an elevation of 2,800 feet—the country consists of a continuous table land. As far as the Well of Tabonia (in about 30 deg. 28 min. N lat.) many deep wadis intersect this table-land, and the ruins of several Homan monuments and columns were discovered by the travelers. Beyond to the south of) Tabonia is the table-land of the Hamada; an immense desert of considerably greater elevation, and extending about 110 geographical miles to the South. As far as the eye can reach, neither trees nor wells are visible, and graphical miles to the South. As far as the eye can reach, neither trees nor wells are visible, and the scanty vegetation which occurs is to be met with only here and there in the trifling irregularities of the surface. The ground is covered with small stones; pyramids of which, erected with great labor, serve as road marks to the intrepid camel drivers by day—while the Polar Star and Antarea are their guides by night. After six long days journey, the expedition reached the southern edge of this table-land; which descends in perpendicular walls to the Wadi el Hessi fin about 28 deg. edge of this table-land; which descends in perpendicular walls to the W adi el Hessi (in about 28 deg. 30 min N. lat) From hence to the W adi Shiali is about sixty geographical miles, over another plateau of less elevation and extent than that of the Hamsda, but of equally dismal aspect—the general direction of the route being S. S. B. It is composed of a black sandstone, the disintegration of which forms a coarse yellow sand, covering the inequalities of the stony surface; and from it stands out prominently the black rock, in bigh cones of the most fantastic forms, so much resembling bassitic rocks that Dr. Overweg's companions were often led to exclaim—"This must be a basaltic rock." He bimself was frequently obliged to examine the rocks closely in order not to be de-

JULY 25th, 1850.

PATENT CUTTING AND CARVING MACHINE FOR WOOD AND METAL.—The above machine having been thoroughly tested for more than two years, the patents of cestres to call the attention of capitalists to the same. The machine embraces the most perfect combination of movements that have ever been introduced for cutting or carving, and is capable of producing any form or shape from the size of the patient down. It performs with the most perfect accuracy and great dispatch every description of cutting and carving. Among a long list of articles may be recknowled to the following: Cabinets and Piano-Forie makers work, blocks for calico, paper and oil-coth printers, wood type, block leiters, picture frames, brush handles, matrices for casting type, and all manner of Goulie, molded, carved and tracer work for carpenters' use in churches, cottages, &c. &c. &c. The seconomy of time and labor by the use of these machines, in farnlashing at a much reduced cost a long list of articles in the mechanical arts of daily use and of utility as well as of luxury, will, it is believed, convince readily the most incredulous as to its value if properly put in operation. The saving in the labor of carving will be at the least 50 per cent, and in cutting tracer, carpenters and others work from 100 1300 per cent; and as it has no rival in its line it will readily control the market. As regards the patent-right tasef, it is incontestibly a substantial one; it is laken on a combination of movements never before attempted, and one of its best recommendations is that it has pased not only the United States Patent Office, but also that of Great Britain, France and Belgium, where their known strictness as regards American inventions precludes the local that his toder than a hovelity.

The patenticle qualifications of either taking a partner capable of managing the business in this city, and having the necessary capital to carry it on, or he will said a part or whole of the Batalea, or one undivided half of the patent in Eggiand, france

A CARD TO THE PUBLIC. NEW YORK
